

Labour vs infocapitalism?

@paulmasonnews

Information technology...

- Collapses production costs
- Automation faster than job creation
- Positive network effects
- Democratises knowledge

...creates the possibility
of a transition
beyond capitalism

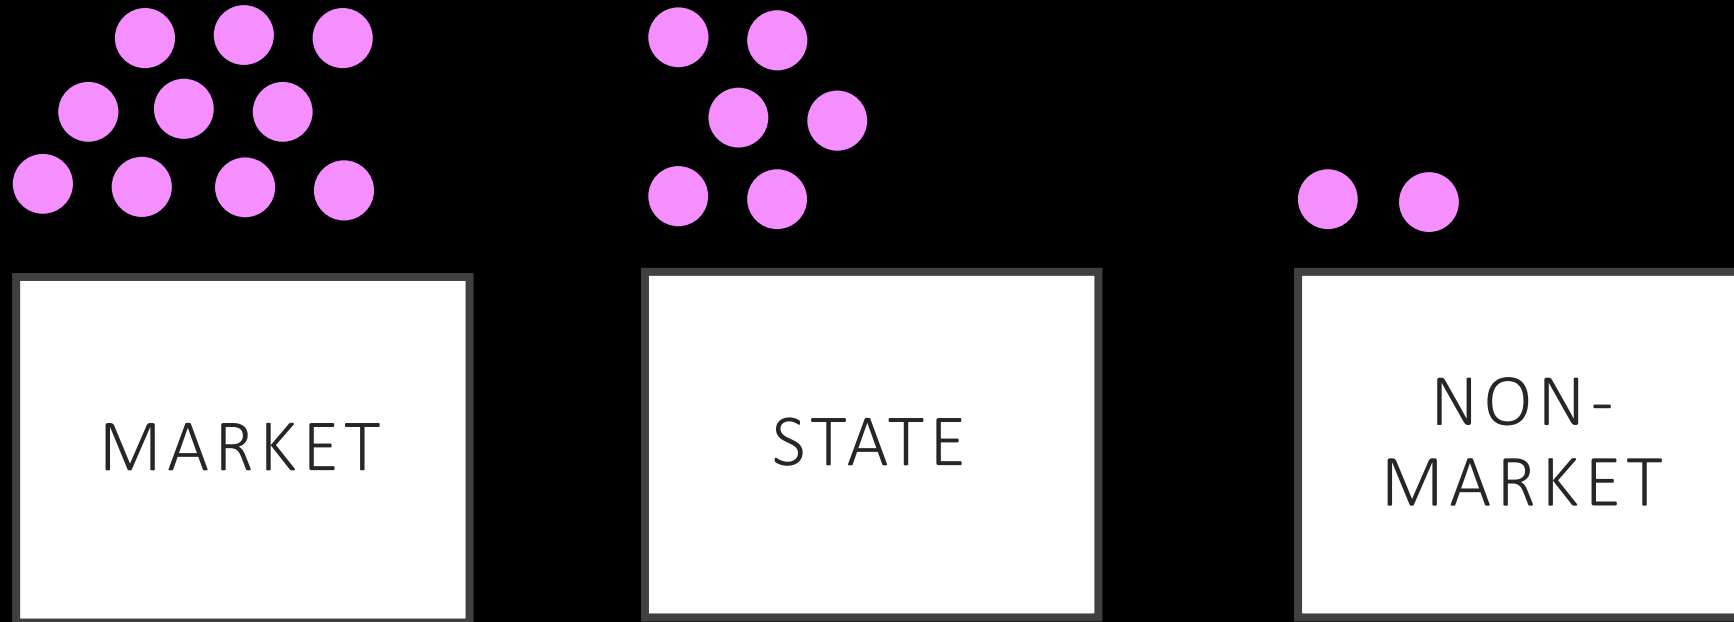

Dysfunctional infocapitalism

- Monopoly pricing
- Precarious work
- Rent seeking
- Vast asymmetry of knowledge

Transition

- Breakup or public ownership
- De-link work and incomes
- Attack rent-seeking, promote commons
- Suppress asymmetry

Methodology

1 HOUR OF LABOUR TIME AS UNIT OF MEASURE

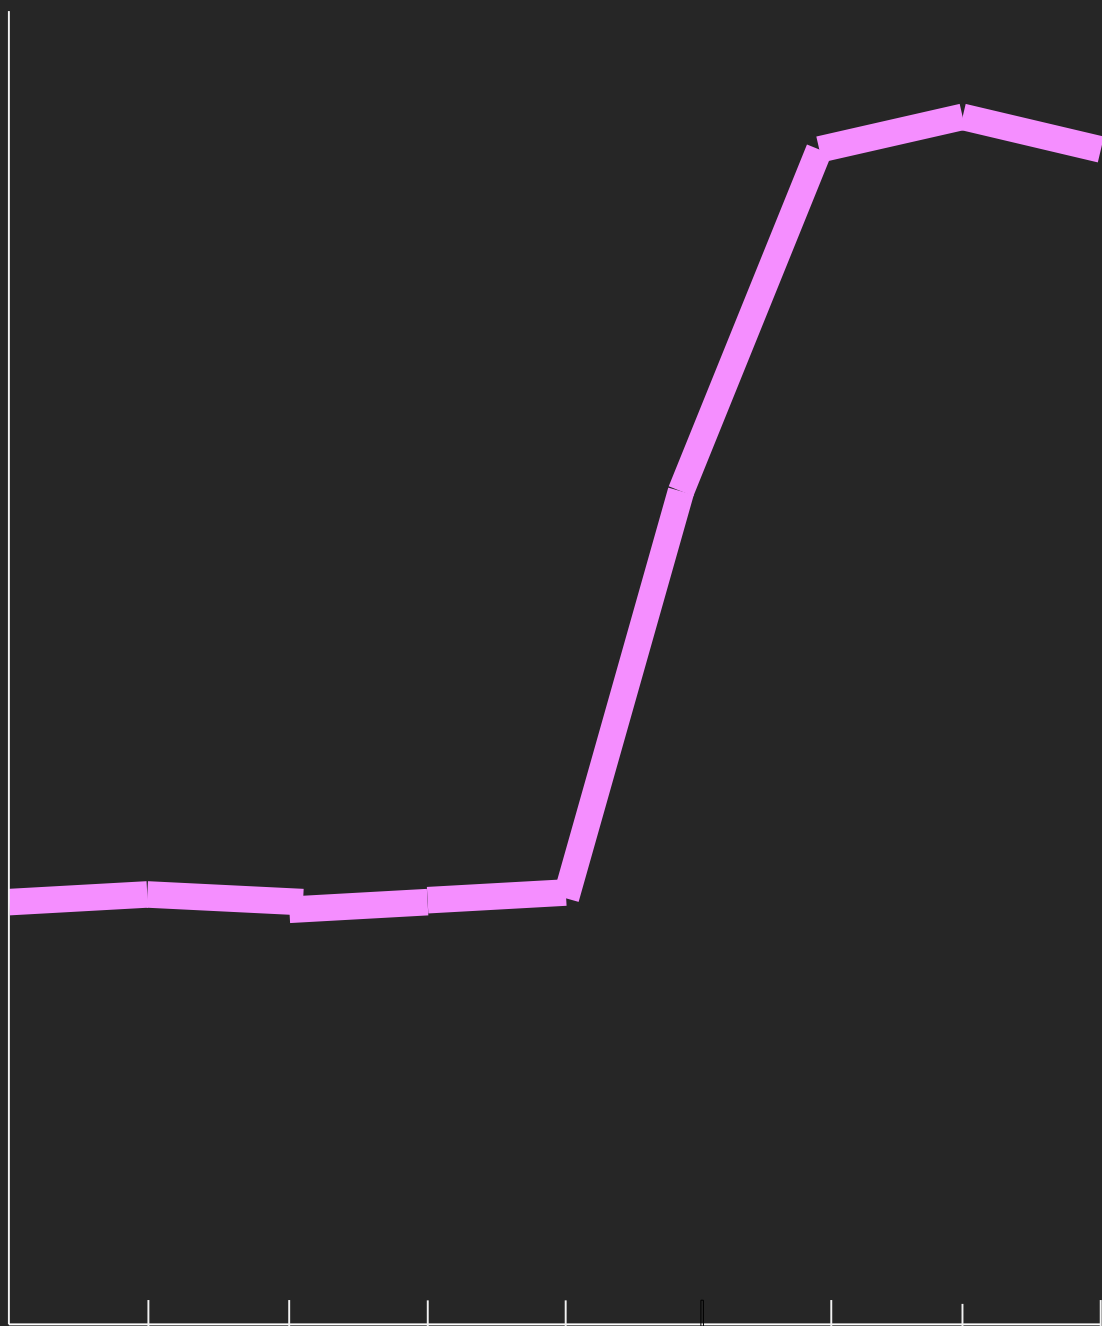

500,000

200,000

2011

2015

2018

A NEW KIND OF POLITICS

Jason
Pritchard

What do they want?

End neoliberalism

Tax and spend

Reindustrialisation

Boost wage share

From alt agenda...

Double number of co-ops

New forms of ownership

Basic Income trial

Universal Basic Services

Radical social democracy

- Breakup tech monopolies
- Free Basic services
- New Companies Act
- Data as a public good
- Office of non-market economy
